

packaging  
[pak-uh-jing] (n) : a flexible sterile barrier used to hold items for sterilization and maintain their sterility.

## Self Sealing Pouches

Steril-Peel® Self-Seal Pouches have a long history of reliable sterilization performance in steam and EtO processes.

## Convenience in Use

Thumb notches ease loading and opening. Tacked corners reduce paper curl.

## Tubing/Rolls

Allow you to select the length you need. For use with heat sealers.

## Quality Assured

Years of experience in manufacture and color-indication of seal strength give you a reliable product that tells you when the seal is right.
